PROFESSIONAL SUMMARY :

As a BCA student with a solid foundation in front-end development, I have developed proficiency in **HTML**, **CSS**, and **JavaScript**, along with frameworks like **React**. My academic projects have provided me with the opportunity to design and implement user-friendly interfaces that ensure a seamless user experience. I am passionate about creating visually appealing and responsive designs that effectively meet client needs. In addition to my front-end expertise, I possess knowledge of other programming languages like:

- **Python**
- **C**
- **C++**

This diverse skill set enhances my ability to contribute to various aspects of development and problem-solving within your team. I believe my attention to detail and commitment to continuous learning would be valuable assets to your company. By bringing fresh perspectives and innovative solutions to your projects, I aim to enhance user engagement and contribute to the success of your web applications. My collaborative approach, strong communication skills, and ability to build positive relationships position me as an ideal fit for your team, ready to make a positive impact from day one. Additionally, my strengths in customer service and time management enable me to exceed goals while troubleshooting and delivering successful solutions.

SKILLS :

- Front-End Technologies: HTML, CSS, JavaScript, React
- Design Tools: Adobe XD, Figma
- Built many projects using HTML, CSS & JS
- Version Control: Git, GitHub
- Soft Skills: Leadership, Team Collaboration, Communication, Problem Solving
- ****Team Member, Hackathon 2024****
- [HACK{O}LUTION], [Institute of Engineering and Management, Kolkata - Ashram Campus], November 2024
